**(2) REVIVE THE APPLICATION AS UNINTENTIONALLY ABANDONED UNDER 37

Sir:

This petition is in response to the Notice of Abandonment, mailed in the above-referenced case on June 30, 2005. The Notice of Abandonment (copy attached, Exhibit 1) was issued for failure to respond to the December 13, 2004 Office Action. Filed herewith is a Response to Requirement for Restriction in response to the Office Action.

The Office Action of December 13, 2004 (copy attached, Exhibit 2) was mailed to Customer No. 24251, Skjerven Morrill LLP, 25 Metro Drive, Suite 700, San Jose, California, 95110. Applicants' attorneys previously were located at the Skjerven firm until February, 2003. In February, 2003, Skjerven Morrill LLP dissolved. The current firm, Parsons Hsue & de Runtz LLP was formed, including the undersigned.

On April 4, 2003, the required paperwork was submitted to the Electronic Business

Center to change the Customer No. and correspondence address from 24251 to 36257, Parsons Hsue & de Runtz LLP, 655 Montgomery Street, Suite 1800, San Francisco, California, 94111. Attached is a copy of the return receipt postcard, Express Mail receipt, Transmittal Letter and spreadsheet (Exhibit 3). See flagged page 7 of the spreadsheet to view the original request to transfer application no. 09/854,166 to Customer No. 36257.

The spreadsheet was acknowledged via email on April 16, 2003 from United States Patent and Trademark Office employee Tony Uranga, which included an error report (email and spreadsheet, Exhibit 4). See flagged page 16 of the spreadsheet to view the acceptance of application no. 09/854,166 to be associated with Customer No. 36257.

In further support that the Customer No. and correspondence address was properly changed to Customer No. 36257, attached is a copy of the Corrected Filing Receipt, mailed on October 2, 2003 (Exhibit 5), and a reply to a Status Request, mailed on October 24, 2003 (Exhibit 6).

According to PAIR records, on September 28, 2004, the United States Patent and Trademark Office erroneously re-entered the Power of Attorney by Assignee of Entire Interest (hereinafter "Power of Attorney") document previously filed on September 7, 2001, changing the Customer No. and correspondence address back to the old Skjerven Morrill address. This Power of Attorney had been previously entered into record on September 7, 2001. Attached is a copy of the Image File Wrapper document list from PAIR, with the entry dates of the Power of Attorney highlighted (Exhibit 7), a copy of the Power of Attorney, date stamped received by the United States Patent and Trademark Office on September 7, 2001 (Exhibit 8) and a copy of the Notice of Acceptance of Power Attorney, dated September 28, 2004, acknowledging the Power of Attorney filed September 7, 2001 had been accepted (Exhibit 9).

Therefore, the Office Action was incorrectly addressed by the United States Patent and Trademark Office through no fault of the Applicants or Applicants' representatives. Because the Office Action was incorrectly addressed, it was not received by the Applicants or the Applicants'

representatives in time to avoid abandonment. The Office Action was not received until Applicants' representatives checked PAIR on October 27, 2005 for the status of the application and realized that the case was abandoned. Therefore, it is requested that the application be revived under 37 CFR 1.137(a) on the grounds that the delay was unavoidable. The entire delay in filing the required reply from the due date for the reply until the filing of this Petition was unavoidable.

Alternatively, if it is decided that the Notice of Abandonment cannot be withdrawn on this record as unavoidable, it is respectfully requested that the subject application be revived under 37 CFR §1.137(b) on the ground that the delay in responding was unintentional. It is submitted, based on the facts stated above, that the delay in responding to the Office action was the result of non-receipt of the Office Action and was therefore unintentional. The entire delay in filing the required reply from its due date until the filing of a grantable petition pursuant to 37 C.F.R. §1.137(b) was unintentional.

Please charge any fees in connection with the filing of these alternative petitions to Deposit Account 502664. This document is being submitted in duplicate.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-26, drawn to a User Interface, classified in class 706, subclass 12 (Artificial Intelligence, Having Particular User Interface).
 - II. Claims 27-40, drawn to Audio Signal Processing, classified in class 704, subclass 500 (Audio Signal Bandwidth Compression or Expansion).
 - III. Claims 41-43, drawn to Encryption, classified in class 713, subclass 189 (Data Processing Protection Using Cryptography).
 - IV. Claims 44-51, drawn to Audio Function Generators, classified in class 706, subclass 5 (Artificial Intelligence, Having function generator).

2. The inventions are distinct, each from the other because:

Inventions I-IV are related as mutually exclusive species in an intermediate-final product relationship. Distinctness is proven for claims in this relationship if the intermediate product is useful to make other than the final product (MPEP § 806.04(b), 3rd paragraph), and the species are patentably distinct (MPEP § 806.04(h)). In the instant case, the intermediate product is deemed to be useful as the ability to alter a signal in such a way that it is not perceptible until the user tries to compress the signal and the inventions are deemed patentably distinct since there is nothing on this record to show them to be obvious variants. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify

Art Unit: 2654

such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions anticipated by the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Because these inventions are distinct for the reasons given above and the search required for each Group I-IV is not required for each other Group, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David D. Knepper whose telephone number is (703) 305-9644. The examiner can normally be reached on Monday-Thursday 0730-1800.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richemond Dorvil can be reached on (703) 305-9645. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Subject RE: Error report for customer number 36257

<<36257_address error report.xls>>

Hello Monique,

Sorry for the delay. We got hit hard the past 2 days with the launch of Epave 5.1.

Anyways, here is the address error report. Read the below information and instructions for processing the report.

I have attached the "initial address error report" for customer number 36257 to this email for your perusal so that you may verify the accuracy of the upload.

This initial address report is the first step in the upload process. This report compares the "current" correspondence address of each application in the spreadsheet to the address of customer number 36257. Any disparity is considered an error. Normally an address match between a listed application and the upload customer number is deleted from this report. The remaining applications would be faxed to your location for validation. Because there are a large number of address errors in the spreadsheet faxing the report to you is impractical, thus the email.

Your next step is to verify that this is indeed what you want up to upload.

This report contains ALL the applications and associated data from the original spreadsheet. Two new columns have been added though, the current address and name of firm or attorney. This is for you to see where the application is currently associated. Sort the data by any column in order to make the validation process easier for you. Go through the report and delete any applications you DO NOT want uploaded. Change any application number you find in error. Please do not add new entries to this spreadsheet. Any new entries should be submitted in a new spreadsheet and mailed to the Electronic Business Center.

Once the report is verified, return it via email along with a signed cover letter stating that the address error report has been verified. The cover letter can be faxed or attached with the spreadsheet. I will then proceed with the upload. Within 10 working days of the upload, a final status report will be mailed to the location of customer number 36257. That report will list what was actually uploaded and what was not.

In order to save you time by decreasing the amount of work put into any future uploads, follow the below guidelines.

The PTO will enter a change in correspondence or fee address or power of attorney in a listed application or patent only when, at least, one of the following identifiers are provided:

1. The patent number and the corresponding application number;
2. The patent number and the corresponding patent date;
3. The application number and the corresponding filing date;
4. The patent number and the corresponding filing date;
5. The application number and the corresponding patent date.

Any questions can be directed at the number below. Please be aware my working hours are from 4pm to midnight EST.

Subject: Error report for customer number 36257

Hi Tony:

We got your message the other day that you would like to email the error report for the customer number. I sent an email in reply yesterday, but we were having some DSL connection issues so I'm not sure if you received it.

You can email the error report to me at mdorning@phdr-law.com, and also please send it to mbuggie@phdr-law.com as well so we have a back-up incase I happen to be out. You can reach me directly at (415) 318-1171 from 8:30 am - 5:00 pm PST.

Thank you for your assistance.

Best regards,

Monique Dorning

**Processing Procedures for the
Enclosed Customer Number Upload Report**

The enclosed report is the result of processing the Customer Number spreadsheet(s) you submitted. Your spreadsheet(s) designates your customer number as your correspondence address and/or practitioners of record and/or fee address for all serial numbers and/or patent numbers listed on the spreadsheet(s). If you submitted more than one spreadsheet, we will sometimes combine the data into a single file so that only one report is printed. When files are combined into a single report, it will be noted on the first page of your copy of the report.

The first part of the enclosed report lists serial numbers and/or patent numbers of applications and patented files not updated with your customer number. The reason for not updating is also provided, e.g., "Filing date error – Excel Date 11/01/95 PALM date 11/21/95". If the PALM date is listed as 00/00/00, this means that your application is still being processed by the Office of Initial Patent Examination and has not been released. Once you receive your official filing receipt for this application, you may resubmit it on a spreadsheet.

Please review this part of the report and determine if the information you provided is incorrect. If yes, correct the information and **submit a spreadsheet containing only those serial and/or patent numbers in error**. We can no longer accept Customer Number spreadsheets via e-mail. The customer number spreadsheets **MUST** be submitted via diskette accompanied by a cover letter signed by an attorney with a registration number associated with the customer number. Mail your spreadsheet to:

U.S. Patent and Trademark Office
Box EBC
Washington, DC 20231

Unless corrections are made, serial numbers and/or patent numbers listed on the error report will continue to be associated with the last available correspondence and/or fee address(s) and or associated registration numbers on file.

The second part of this report lists applications and/or patented files updated with your new customer number information. For each updated file listed, the first line of the previous correspondence address is provided. If this looks unfamiliar, it may be that you have updated your customer number to a file belonging to someone else. It is extremely important to immediately notify the USPTO when errors are found. Otherwise, correspondence for file(s) belonging to someone else will be mailed to your customer number address. Please provide, in writing, the following information: A statement that the serial numbers and/or patent numbers were updated with your Customer Number in error. For each application or patented file updated in error, list the Serial Number and/or Patent Number, Issue Date and/or Filing Date, your customer number and the name and phone number of someone to contact in case there are questions. Send this information to the same address listed above.

If you submit another spreadsheet, please do not include any commas (,) or slashes (/) as part of the serial number or patent number. Do include the series number as part of the 8 digit serial number. Also, for now, we cannot accept PCT serial numbers in the customer number program. Please do not resubmit any PCT's included in the error report. Continue to submit individual letters for each PCT file when you have a change of correspondence address and/or fee address.

If you have any questions, please call the Patent Electronic Business Center at (703) 305-3028 or at our Toll Free Number: 1-(866) 217-9197. Thank you for your help and support of the Customer Number Program.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

We currently project that it will be more than 15 months before this application will receive a first office action. This is because the application is classified in a technology that has experienced a large filing rate growth over the last few years. The Office is addressing the growth by adjusting examination resources accordingly. You may wish to consult the MPEP (708.02) to see if filing a petition to make special is appropriate.
